SHAREEFA INFORMATION LEAFLET

SHAREEFA (Ghana Kashaya)

- ✓ Is made from high-concentrate pure and standardized herbal extracts
- ✓ Product formulated by qualified and experienced Scientists with 20 years of experience in Phytochemical compounds with latest Scientific tools of research and Drug Discovery experienced scientists with state of the art In-Silico computer simulation studies on efficacy.
- ✓ Researched from plant compounds with a database of more than 50000 phytochemical compounds.
- ✓ No added synthetic colors, chemicals and artificial flavoring agents.
- ✓ GMP Certified Licensed Registered Manufacturing and sale Unit.
- ✓ Cost effective treatment by helping improve immunity and fight against viruses

BENEFITS OF SHAREEFA:

SHAREEFA is an ayurvedic antiviral syrup prepared with 100% plant extract. As per Ayurveda reference books "**Bhavaprakasha**", **Wild Fruits Composition, Nutritional Value and Products (Book)** and **Edible Medicinal and Non-Medicinal Plants Volume 1, Fruits (Book)**, **SHAREEFA** helps in prevention and control of most viral infections by **improving the immune system**. The plant also acts as an antiviral, antimalarial, antiplatelet¹, anti-inflammatory, anti-HIV, etc., activities. The syrup does not have any side effects. From an early time, plants have been one of the basic sources of medications. The interest of using traditional medicinal plants as prescribed in Ayurvedic texts combined with modern scientific research publications has paved the way for treatments of many ailments in India being the birth place of Ayurveda delivered through Lord Dhanvanthari and caught up the World wide interest due to the emergence of multidrug resistant of many microbes and the harmful side effects of synthetic drugs- besides their high costs. Therefore, a lot of research was conducted on the different parts of the plant because of the occurrence of precious annonaceous acetogenins, which are generally utilized for the treatment of numerous illnesses.

AS IMMUNITY BOOSTER:

SHAREEFA is an Ayurvedic plant extract which helps in boosting immunity which is an excellent supplement enriched with 100% phytochemical extract of *Annona squamosa* plant. **SHAREEFA** helps to improve platelet count thereby boosting immunity in a short span of time. Ayurvedic Consultants have recommended that **SHAREEFA** should be offered as an immunity booster to prevent flu & other harmful viruses. They have also noted that as it improves the platelets, it is very beneficial for general weakness, fatigue, and in meeting the essential nutritional needs in the body.

DOSAGE

When cold cough symptoms are felt:

- ✓ For Adults: 10 ml thrice a day after a meal for three days
- ✓ For Children (*above 5 years and less than 12 years only*): 5 ml thrice a day after meals for
